- Special categories of cited documents:
- 'A' document defining the general state of the art which is not considered to be of particular relevance
- 'E' earlier document but published on or after the international filing date
- document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- document referring to an oral disclosure, use, exhibition or other means
- document published prior to the international filing date but later than the priority date claimed
- *T* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.

INTERNATIONAL SEARCH REPORT

Box I Ob	servations where certain claims were found unsearchable (Continuation of item 1 of first sheet)				
This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:					
bed	nims Nos.: cause they relate to subject matter not required to be searched by this Authority, namely:				
bo	though claim 21 is directed to a method of treatment of the human/animal ody, the search has been carried out and based on the alleged effects of the impound/composition.				
bed bed	tims Nos.: cause they relate to parts of the International Application that do not comply with the prescribed requirements to such extent that no meaningful International Search can be carried out, specifically:				
	tims Nos.: cause they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).				
Box II Ob	servations where unity of invention is lacking (Continuation of item 2 of first sheet)				
This Internat	tional Searching Authority found multiple inventions in this international application, as follows:				
1. As sea	all required additional search fees were timely paid by the applicant, this International Search Report covers all archable claims.				
2. As of a	all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment any additional fee.				
3. As cov	only some of the required additional search fees were timely paid by the applicant, this International Search Report vers only those claims for which fees were paid, specifically claims Nos.:				
4. No res	required additional search fees were timely paid by the applicant. Consequently, this International Search Report is tricted to the invention first mentioned in the claims; it is covered by claims Nos.:				
Remark on	Protest The additional search fees were accompanied by the applicant's protest. No protest accompanied the payment of additional search fees.
